

# AWARD KENTUCKY BLUEGRASS

## ATTRIBUTES

★'s 5 = Outstanding, 4 = Very Good, 3 = Good, 2 = Moderate, 1 = Poor

★★★★★	Close Mowing	★★★★★	Summer Patch
★★★★	Shade Tolerance	★★★★	Dollar Spot
★★★★★	Low Fertility	★★★	Leaf Rust
★★★★★	Heat Tolerance	★★★★★	Leaf Spot
★★★★★	Turf Density	★★★★★	<i>Poa annua</i>

- Jacklin Seed's #1 top selling Kentucky bluegrass of all time
- Trusted by turf managers the world over for premium performance, superior consistency
- Proven "top-10" turf quality in US/Canadian university trials for 10 years running
- **Award** ushered in the era of the "low-mow Kentucky bluegrass"

## PERFORMANCE HIGHLIGHTS

**FAIRWAY BLUEGRASS:** **Award** is the ideal *fairway bluegrass*, able to perform at close mowing down to ½ inch (12 mm). In national testing, it scored #1 at mowing heights below 1 inch (25 mm).

**GROUND-FILLING DENSITY:** **Award** brings that *golf course look* to your lawn, park, or sports field. Its luxurious dark green color and ground-filling density help to crowd out weeds.

**ALL MAINTENANCE LEVELS:** From high maintenance to low, **Award** is the first bluegrass to excel at all maintenance levels. In university trials **Award** was among the top 2 varieties for unirrigated, low maintenance lawns.

**#1 AMONG BLUEGRASSES:** In NTEP tests, **Award** scored first place finishes for close-mow tolerance, summer density, fall color, and turf quality in the Northeast region.

**WIDE ADAPTATION:** **Award** is broadly adapted, having been planted on over 100,000 acres of turf in over 20 countries. You can have confidence that **Award** will perform for you – from alpine climates to the sizzling Transition Zone.

**TOP PERFORMANCE:** According to unbiased test results, **Award** is top rated in spring density and ground cover, late fall (December) color and ground coverage, traffic and wear tolerance, Transition Zone endurance, shade tolerance, fewest seedheads in the turf, and fastest sod lifting (stretch resistance).

**PEST RESISTANT:** **Award** scores above the rest in pink snow mold, summer patch, necrotic ring spot, leaf rust, and anthracnose resistance. **Award** is one of Jacklin Seed's best against dollar spot. Its dense nature fights encroachment of *Poa annua*.

**BLENDS WELL:** **Award's** rich color compliments all Jacklin grasses. Plant it at 2-3 lbs./1000 ft<sup>2</sup> (10-15 g/m<sup>2</sup>) with other bluegrasses. Mix it with ryegrass at 80% **Award**, or with tall fescue at 20% **Award**.
